

CSCI 6333/6315 Database Systems

**Spring 2020
Zhixiang Chen**

Project Assignment Part C

System Design (100 points)

Due: Midnight, Tuesday, March 31, 2020

For Part C of the Course Project, I ask you to work on the system architecture design. For this part, you need to present architecture control flow charts, and descriptions of architectural components. For your reference, here is one system design example –

[ANTES System Software Design.](#)

For your convenience, the link to the file is given below:
